IDENTIFIERS	*Minnesota

ABSTRACT

This document is the 26th in a series that presents data on school districts in Minnesota in the areas of enrollment, staffing, and finance. Since 1994-1995, data has been presented as per average daily membership, but before that, weighted average daily membership was used. Increases in student enrollment in Minnesota began with the 1985-1986 school year and continued through 1999-2000, but at a reduced rate. Enrollment in 1998-1999 totaled 846,664 average daily membership. These students are enrolled in districts that vary greatly in size, but the 10 largest districts enrolled almost 30% of the state's public school students. The sections of this report are: (1) "Introduction"; (2) "Uniform Financial Accounting and Reporting Standards Sources of Expenditure Data Definitions" (3) "Trends and Patterns"; (4) "Definitions of Data Elements"; (5) "List of School Districts"; (6) "Map--Minnesota Counties and Development Regions"; (7) "Data for School Districts"; (8) "Data for Counties, Development Regions, and the State"; (9) "Data for Enrollment Size Groups"; and (10) "Summary Statistics." Sections 7 through 10 are in table form. (SLD)

School District Profiles, 1998-99 is the twenty-sixth in a series which presents data on school districts in the areas of enrollment, staffing and finance. Beginning with 1994-95, data is presented as per average daily membership (ADM). Prior to that, data was per weighted average daily membership (WADM).

In order to cut costs, the Department will not be mailing this publication to school superintendents in this or future years. Copies are available from the Minnesota Bookstore at 1-800-657-3757.

If you need more information, please contact Mike Enman at 651-582-8770 or via e-mail.

Summary Statistics

INTRODUCTION

School District Profiles 1998-99 is the twenty-seventh in a series which presents data on school districts in the areas of enrollment, staffing and finance. Beginning with 1994-95, data has been presented as per average daily membership (ADM). Prior to that, data was per weighted average daily membership (WADM).

This year, four columns of data were added: (1) the number of licensed instruction staff; (2) the ratio of licensed instructional staff per ADM served; (3) the General Fund Unreserved Balance; and (4) the General Fund Reserved Balance.

Interdistrict Cooperation and Consolidations

Minnesota legislation has encouraged Minnesota school districts to cooperate in the provision of education services to ensure efficient and effective operation.

Academic Pairing

Laws enacted in 1979 and 1983 eliminated the requirement that every school district provide education services for all grades. This allowed districts to enter into agreements for the provision of services, with "paired" districts offering different grade levels. Thirty-six districts participated in academic pairing during the 1998-99 school year.

1998-99Academically Paired Districts

21	Audubon
24	Lake Park
175	Westbrook
641	Walnut Grove
328	Sioux Valley
513	Brewster

2135	Maple River

Consolidations

Declining enrollments in many districts, combined with legislated financial incentives, have resulted in a number of school district consolidations in recent years. Between the 1998-99 and 1999-2000 school years thirteen districts combined to form six new districts. These are:

New District	Old Districts

UFARS ACCOUNTING SYSTEM BACKGROUND

In 1976 the Uniform Financial Accounting and Reporting Standards (UFARS) Council was established by the Minnesota Legislature. The Council was charged with making recommendations to the State Board of Education for accounting standards consistent with Minnesota Statutes and with Generally Accepted Accounting Principles (GAAP). The result was the UFARS Manual which brought greater accuracy and uniformity in accounting and reporting by the local educational agencies. In 1993-94 the Department of Children, Families & Learning became responsible for the UFARS System with advisory assistance from the Accounting Guidelines Committee, which is a voluntary body of school district, regional, state agency and CPA business personnel.

Overview of Dimensions

The Uniform Financial Accounting and Reporting Standards (UFARS) revenue and expenditure account structure consists of six dimensions. Each dimension contributes specific information about every revenue and expenditure transaction. The dimensions are Fund, Organization, Program, Finance, Object (for expenditures) and Source (for revenues), and Course. The Fund Dimension is a two digit field; the remaining five dimensions each have three digits. Thus, an entire account code contains seventeen digits. The Department of Children, Families & Learning collects data on all six dimensions; however, the Course Dimension has only minimal use in UFARS at this time.

Fund Dimension

A fund is a fiscal entity with a set of accounts that record revenues, expenditures, liabilities and assets. Each fund is segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with state and federal laws and regulations. Fund numbers (03), Transportation, and (05), Capital Outlay, were discontinued beginning with 1996-97 (F.Y. 1997). These programs are now reported in Fund 01.

Minnesota schools used the following UFARS funds in 1998-99:

Fund Number	Fund Name
01	General Fund
02	Food Service Fund
04	Community Service Fund
06	Building Construction Fund
07	Debt Service Fund
08	Trust Funds
09	Agency Funds
20	Internal Service Fund

Organization Dimension

This dimension identifies revenues and expenditures to either budgeted learning sites or district-wide.

Account Numbers	Organization Names
005	District-Wide or not Otherwise Identified by Budgeted Learning Site
001-004	Budgeted Learning Sites (MARSS Number)
006-798	"
800-899	"
799	Home School Sites

Finance Dimension

This dimension is generally used to record revenues and expenditures that relate to an activity funded by a categorical aid or levy, or to a reserved fund balance.

The dimension is also that segment of the total UFARS account structure used to define specific local, federal, or state projects. The series in this dimension are listed to the right:

Finance Series Names	Account Numbers
District-Wide	000
State Supported Programs	302-375
Federal Program Aid Received Through DCFL	401-491
Federal Aid Received Directly From Federal Sources	507-513
Child Nutrition	701-709
Transportation	711-739
Special Education	740-760
Levy Supported Programs	761-798
Local Collaborative Time Study (LCTS)	799
Secondary Vocational and School-To Work	830-835

Program Dimension

This dimension is used to delineate all instructional and support service programs associated with public school districts. The series in this dimension are listed to the right:

Program Series Names	Account Numbers
District and School Administration	001-099
District Support Services	100-199
Elementary and Secondary Regular Instruction	200-299
Vocational Education Instruction	300-399
Special Education Instruction	400-499
Community Education and Services	500-599
Instructional Support Services	600-699
Pupil Support Services	700-799
Sites and Buildings	800-899
Fiscal and Other Fixed Cost Programs	900-999

Object Dimension

The Object Dimension identifies the service or commodity obtained as the result of an expenditure. This is the most detailed level of expenditure reporting. The object series are listed to the right:

Object Series Names	Account Numbers
1. Salaries and Wages	110-199
2. Employee Benefits	200-299
3. Purchased Services	300-399
4. Supplies and Materials	400-499
5. Capital Expenditures	500-599
6. Debt Service	700-799
7. Other Expenditures	800-899
8. Other Financing Uses	900-999

Source Dimension

The Source Dimension identifies the origin of revenues received. It contains the series listed to the right:

Source Series Names	Account Numbers
1. Local Revenues	001-099
2. State Revenues	200-399
3. Federal Revenues Received Through DCFL and Other State Agencies	400-499
4. Federal Revenues Received Directly from Federal Sources	500-599
5. Local Sales and Insurance Recovery	601-626
6. Sale of Bonds and Loans	631-640
7. Incoming Transfers From Other Funds	649-699

Account Codes Pertaining To Expenditure Categories in This Publication

Columns	Descriptions	Funds	Program Series	Object Series
20.	District and School Administration	1, 8, 9	001-099	All Objects except 500-599 and 910
21.	District Support Services	1, 8, 9	100-199	"
22.	Regular Instruction	1, 8, 9	200-299	"
23.	Vocational Instruction	1, 8, 9	300-399	"
24.	Exceptional Instruction	1, 8, 9	400-499	"
25.	Instructional Support Services	1, 8, 9	600-699	"
26.	Pupil Support Services	1, 8, 9	700-749, 770-799	"

28.	Food Service	2	All	"
29.	Pupil Transportation	1, 8, 9	750-760	"
30.	Other Operating Programs	1, 8, 9	0, 500-599, 900-999	"
31.	Total PK-12 Operating Expenditures* (This is the total of categories 20 through 30)	1, 2, 8, 9	All	"
32.	Capital Outlay	1, 2, 4	All	500-599
33.	Community Service	4	All	All Objects except 500-599 and 910
34.	Building Construction	6	All	All but 910
35.	Debt Service	7	All	All but 910

*Not including capital expenditures

TRENDS AND PATTERNS

Students

Minnesota PK-12 enrollment increases began with the 1985-86 school year and continue through 1999-2000, but at a reduced rate (Figure 1). Enrollment in 1998-99 totaled 846,664 average daily membership (ADM), a 0.55% increase over the 1997-98 total of 842,058. Also, a greater proportion of students are in the secondary grades.

Minnesota's school districts vary greatly in enrollment. The 10 largest districts, all in metropolitan areas, enrolled almost 30 percent of Minnesota's public school pupils.

Minnesota, like the rest of the nation, is experiencing a growth in the proportion of its population classified as minority. Minority population growth shows up in school enrollments (Figure 2). Although Minnesota's minority enrollment percentages increased significantly from 6.1% in 1986-87 to 15.0% in 1998-99, this is still only about one-third of the United States percentage.

Further, Minnesota's minority composition is different from that of the United States as a whole (Table 1, Page 10). American Indians have always constituted a more significant proportion of Minnesota's enrollment and the Asian population became more significant after the Vietnam war.

FIGURE 1
Average Daily Membership; Actual and Projected
1980-1981 through 1999-2000

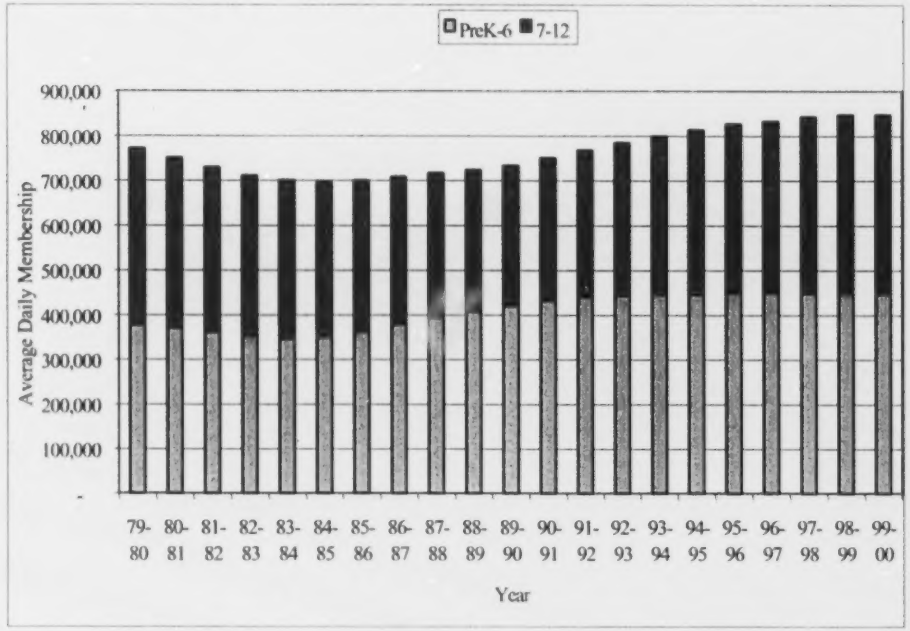

FIGURE 2
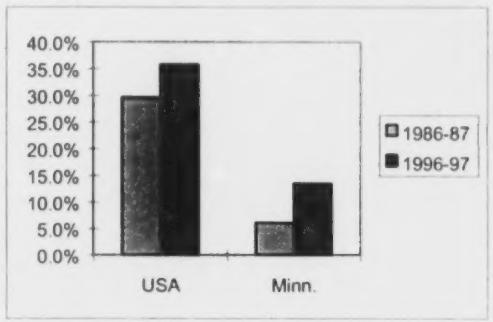
Percent Minority Enrollments
Minnesota and United States



Year	1986-87	1996-97	1998-99
USA	29.6%	35.8%	N.A.
Minn.	6.1%	13.5%	15.0%

The statewide 0.55% growth in 1998-99 ADM over 1997-98 ADM has not been uniform throughout the state. Figure 3 shows that counties in and around the Twin Cities metropolitan area experienced significant growth over the past decade, as did counties around St. Cloud and between St. Cloud and the Twin Cities. In contrast, many counties in the southwest, northeast and northwest parts of the state either grew very little or experienced declining enrollments.

FIGURE 3

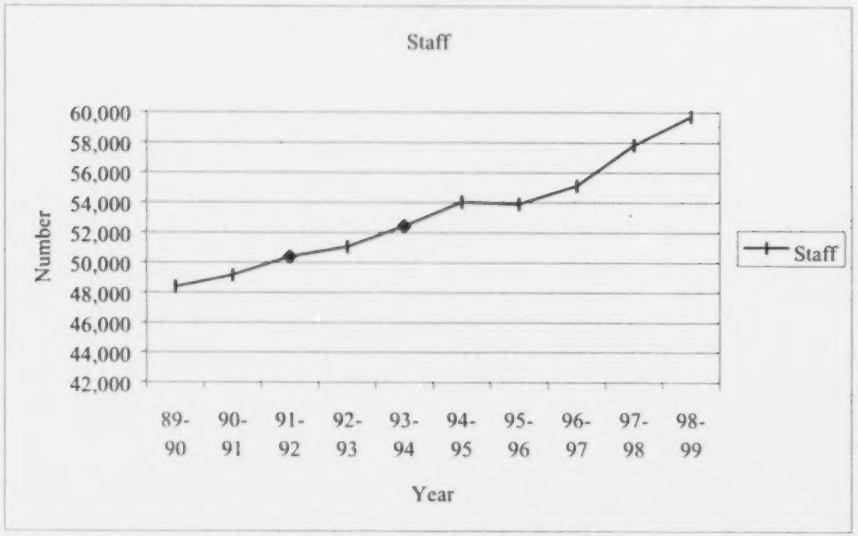
Instructional Staff

Compensation for teachers and other licensed district staff constitutes districts' largest operating cost. Figure 4 shows the number of these staff over the past decade. The accompanying table also shows the ratio of pupils (in ADM) to licensed professional staff. This ratio shows a decrease from 1997-98 to 1998-99, from 14.4 to 14.0.

FIGURE 4
State Total Licensed Staff
1989-90 Through 1998-99



Year	Staff	Pupil/Staff
89-90	48,372	15.1
90-91	49,138	15.1
91-92	50,386	15.0
92-93	51,042	15.2
93-94	52,415	15.1
94-95	54,032	14.9
95-96	53,875	15.3
96-97	55,092	15.0
97-98	57,813	14.4
98-99	59,724	14.0

Teacher salaries are determined by negotiations between teacher unions and their local school boards. Rapidly growing school districts usually have a higher proportion of younger, less experienced staff with fewer advanced degrees; this usually translates into lower average salaries than in districts with stable or declining enrollments. Figure 5 shows a history of average teacher salaries in Minnesota, while Figures 6 and 7 show how age and educational attainment of teachers have changed. The percentage of teachers being paid more for having graduate degrees increased from 39.8% in 1990-91 to 41.2% in 1998-99.

FIGURE 5
Average Minnesota Teacher Salaries
1992-93 Through 1998-99

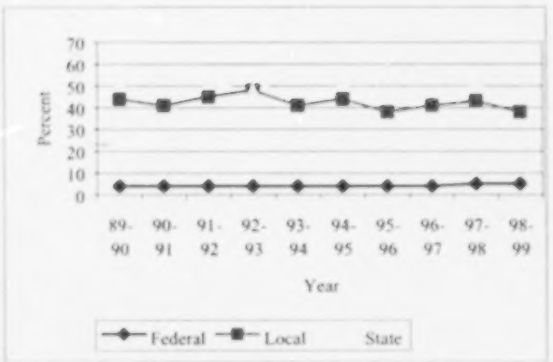
BA	60.2%	58.8%
Advanced Degrees	39.8%	41.2%

Revenues

School revenues come from three sources: local (predominantly property taxes), state, and federal. Figure 8 shows that the percentages of revenue received by Minnesota school districts from the three sources have varied over the last decade. In 1991-92, as a result of state budgetary problems, school districts were required to "recognize" certain levy receipts earlier than in prior years. This earlier recognition had the effect of shifting the state/local mix towards a larger local contribution since early property tax receipts replaced state aids. The ratio further decreased in 1992-93 but rebounded in 1993-94 to percentages which typify most of the period. The state percentage increased from 1997-98 to 1998-99, from 52% to 57%.

FIGURE 8
Statewide Average Sources of Revenues for All Funds 1989-90 Through 1998-99



Percentages

Year	Federal	Local	State
89-90	4	44	52
90-91	4	41	56
91-92	4	45	51
92-93	4	48	48
93-94	4	41	55
94-95	4	44	52
95-96	4	38	58
96-97	4	41	55
97-98	5	43	52
98-99	5	38	57

Minnesota's four or five percent federal revenue percentage is less than the national average of approximately six percent. Federal funds are typically targeted toward specific minority and disadvantaged student populations - groups which consti-tute a smaller proportion of Minnesota's enrollment than they do nationwide.

Another way of examining Minnesota's PK-12 revenues is by accounting fund. A fund in the Uniform Financial, Accounting and Reporting Standards (UFARS) system is a self-contained set of accounts established for either general purposes or for a specifically defined set of fiscal activities such as food service or debt redemption. Table 2 compares Minnesota school district revenues in the six UFARS funds existing in 1998-99. The 1989-90 funds were reformatted to reflect current active funds. Over that period the proportion of revenues allocated to nonoperating funds grew dramatically, led by sizable increases in the Building Construction Fund.

TABLE 2
Percent of Minnesota Revenues by Fund 1989-90 and 1998-99

	1989-90	1998-99
General Fund	84.0%	74.4%
Food Service Fund	3.3%	3.1%
Community Service Fund	2.8%	3.3%
Total, Operating Funds	**90.1%**	**80.8%**
Building Construction Fund	5.6%	7.5%
Debt Redemption Fund	3.6%	9.7%
Other Funds	0.7%	2.0%
Total, Non-Operating Funds	**9.9%**	**19.2%**
Total, All Funds	**100.0%**	**100.0%**

Expenditures

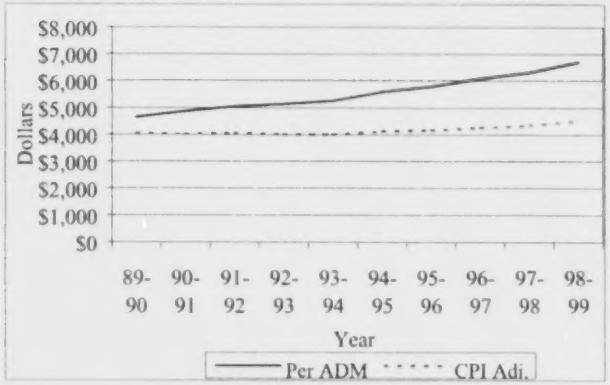
Figure 9 indicates that statewide average operating expenditures per pupil, as adjusted by the Consumer Price Index (CPI) 1985-86 base year, have grown over most of the decade at a rate slightly exceeding inflation. These expenditures vary district-to-district as shown in Figure 10. Districts at the 95th percentile expended approximately 54 percent more per average daily membership than districts at the 5th percentile. (In this comparison, small districts count the same as large districts.)

The distribution of operating expenditures by program has also changed over the decade as indicated in Table 3. Operating expenditures include those in the General, Food Service, and Community Service funds.

TABLE 3
Distribution of District Operating Expenditures By Program
1988-89 and 1998-99

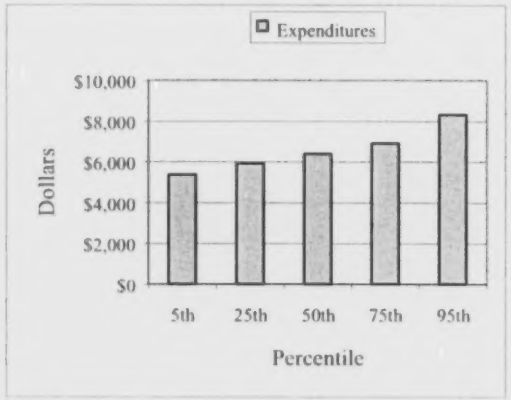
	1988-89	1998-99
Administration	8.3%	8.4%
Instruction	62.4%	64.8%
Student Services	12.8%	13.9%
Operations & Maintenance	8.2%	8.3%
Other Operating Programs	8.3%	4.6%
Total	100.0%	100.0%

FIGURE 9
State Average Operating Expenditures Per Average Daily Membership
1989-90 Through 1998-99



Year	Per ADM	CPI Adj.
89-90	$4,644	$4,053
90-91	$4,864	$4,018
91-92	$5,055	$4,070
92-93	$5,139	$4,007
93-94	$5,263	$4,003
94-95	$5,589	$4,135
95-96	$5,789	$4,168
96-97	$6,080	$4,261
97-98	$6,313	$4,345
98-99	$6,702	$4,535

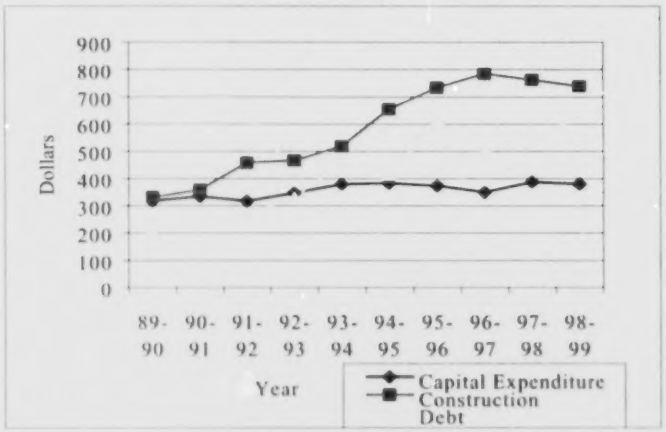
FIGURE 10
Distribution of District Operating Expenditures Per Average Daily Membership
Selected Percentiles for 1998-99



Percentile	Expenditures
5th	$5,391
25th	$5,951
50th	$6,407
75th	$6,928
95th	$8,322

Figure 11 indicates that nonoperating expenditures per ADM also continued to grow. Non-operating expenditures include Capital Outlay, Building Construction and Debt Service

FIGURE 11
State Average Non-Operating Expenditures
Per Average Daily Membership
1988-89 Through 1998-99

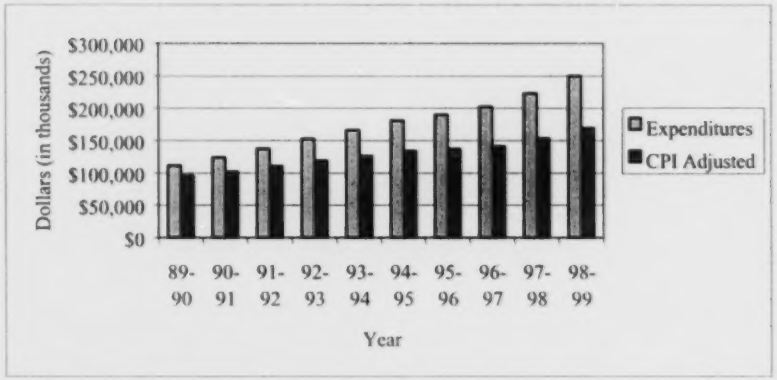


(columns 32, 34 and 35, respectively, in the district detail). The increased spending may be due, in part, to increased state funding for non-operating costs.

Community Services

Figure 12 shows the growth in community service expenditures from 1989-90 to 1998-99. It shows that these expenditures also have grown faster than the general rate of inflation. Community education/community service programs include expenditures for recreation, civic activities, adult education, early childhood education, educational programs which are not conducted primarily for elementary and secondary students, and noncredit summer school programs.

FIGURE 12
State Total Community Service Expenditures
1989-90 Through 1998-99

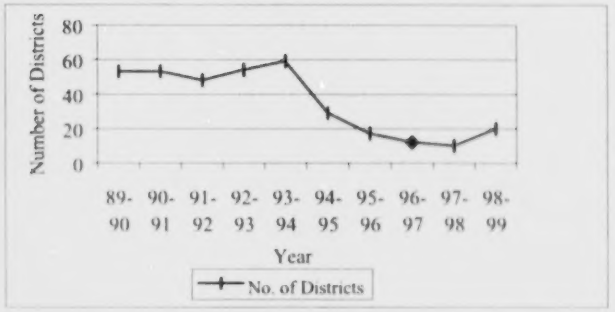


Operating Funds Balance

A school district's Net Unappropriated Operating Fund Balance (NUOFB) is a measure of its financial health at the end of the school year. It can be either positive or negative. A positive NUOFB balance represents a financial reserve; a negative balance means that liabilities (debts) exceed financial assets. Districts with a negative year-end balance greater than 2.5 percent of their prior year's operating expenditures are defined as being in violation of expenditure limitations specified by Minnesota Statute and are deemed to have "statutory operating debt" (SOD). They are required to submit a plan to the Commissioner of Children, Families & Learning explaining how they will eliminate the deficit. In the measure, ten reserves and their related expenditures are not included.

Figure 13 (next page) indicates that the downward trend in the number of districts in statutory operating debt (SOD) since 1993-94 reversed in 1998-99. The number increased from 10 to 20, not including charter schools.

FIGURE 13
Number of Districts With Net Unappropriated Operating Debt Exceeding 2 1/2% of Yearly Expenditures, 1989-90 Through 1998-99



Year	No. of Districts
89-90	53
90-91	53
91-92	48
92-93	54
93-94	59
94-95	29
95-96	17
96-97	12
97-98	10
98-99	20

Figure 14 concerns a different operating balance: The total unreserved operating funds balance. This measure excludes all reserved balances, while the NUOFB excludes only 10 specified reserve balances. This balance is reported on a per ADM basis in column 36 of the district data. Figure 14 shows that the state total as a percent of total operating expenditures decreased from 1996-97 to 1998-99, from 9.7% to 7.6%.

Adjusted Net Tax Capacity

A school district's Adjusted Net Tax Capacity (ANTC) per ADM is a measure of real and personal property subject to a local property tax levy. ANTC per ADM differs among the school districts. As Figure 15 indicates, districts at the 95th percentile have about 4.8 times the Adjusted Net Tax Capacity per ADM as districts at the 5th percentile. Minnesota has taken measures over the years to neutralize the effects of these differences.

FIGURE 14
State Total Unreserved Operating Funds Balance as a Percent of Total Operating Expenditures 1989-90 Through 1998-99

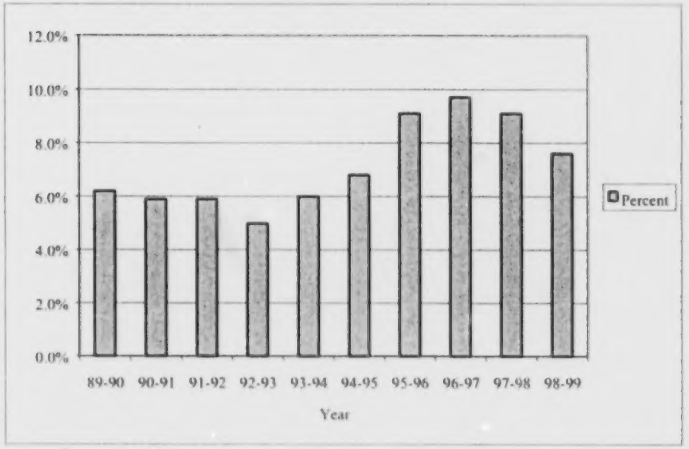


FIGURE 15
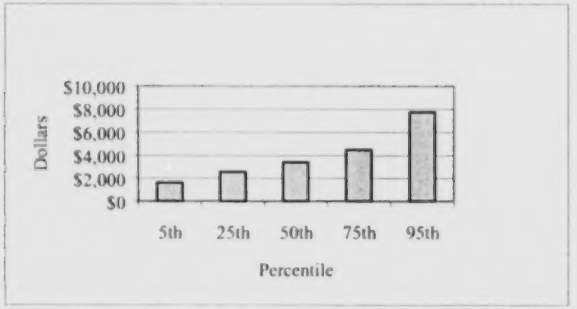
Distribution of 1997 Adjusted Net Tax Capacity Per 1998-99 Average Daily Membership



DEFINITIONS OF DATA ELEMENTS

The tables on pages 26 through 61 contain 42 separate statistics for each school district, county, region, and size of district in the state. Definitions of these 42 statistics are given below. All data are for the 1998-99 school year.

Average daily membership (ADM) is the average number of pupils in membership during the school year. Pupils need not be in attendance to be counted in ADM, but they must be in membership (i.e., currently enrolled in the district). A student can be absent without explanation for three weeks before he or she is dropped from membership.

Pupil Data

Resident Average Daily Membership

The ADM counts in this section are counts of total resident ADM, including all residents who are (a) enrolled in their home district, (b) educated in another district for whom tuition is paid, or (c) attending another district under the Enrollment Options legislation. Resident membership includes:

1. **Pre-Kindergarten Disabled** Resident ADM of prekindergarten students enrolled in special education programs.

2. **Kindergarten** – Resident ADM of students enrolled in kindergarten classes.

3. **Elementary (Grades 1-6)** – Resident ADM of students enrolled in grades 1 – 6, including students in elementary level ungraded and special education classes.

4. **Secondary (Grades 7-12)** – Resident ADM of students enrolled in grades 7 – 12, including those students in secondary level ungraded and special education classes.

5. **Total (PK-12)** – Total Resident ADM of all district residents, prekindergarten through grade 12; this is the total of columns 1 through 4.

Other Pupil Data

6. **Total ADM Served** – This includes residents attending their home district, resident students tuitioned to other school districts, nonpublic school students being served via a Shared Time program, nonresident students who transfer in via one of the attendance options programs, and nonresident tuition students. Excluded is the portion of a student's time spent in a postsecondary institution via the Postsecondary Enrollment Options Program, as well as those residents who transfer to other districts via one of the attendance options programs.

7. **Percent Minority** – The percentage of the district's students who are of Native American/Alaskan, African American, Asian or Hispanic ancestry.

8. **Percent Attendance** – The ratio of days attended to days in membership for all students in the district.

9. **Percent Transported** – The percentage of resident public school students eligible to be transported to and from school.

10. **Percent Eligible for Free/Reduced Lunch** – The percentage of students eligible for free or reduced price lunches in 1998-99. This data is derived from the Application for Education Benefits completed by families at the individual school districts. The percentage is calculated by dividing the number of eligible students by the total October 1 enrollment.

Professional Staff

These statistics provide information about each district's professional staff. Staff are counted in full time equivalents (FTE). For example, a full time staff member is counted as 1.0 FTE; one employed only half time is counted as 0.5 FTE.

11. **Total Licensed Professional Staff (FTE)** – The total number of licensed professional staff employed by the district, measured in full-time equivalents (FTE). This count includes administrators, classroom teachers, and all other licensed professional personnel.

12. **Pupil–Professional Staff Ratio** – Total average daily membership (ADM) served (Col. 6) divided by the number of licensed professional staff (Col. 11).

13. **Total Licensed Instructional Staff (FTE)** – The total number of licensed instructional staff employed by the district measured in full-time equivalents (FTE).

14. **Pupil-Instructional Staff Ratio** – Total average daily membership (ADM) served (Col. 6) divided by the number of licensed instructional staff (Col. 11).

Tax Capacity Rates

These figures show school district tax levies expressed as a percentage of tax capacity for school district property taxes payable in 1998. Taxes payable in 1998 provided revenue for the 1998-99 school year.

15. **Auditor Percent** – The actual school district tax rate as determined by the county auditor. With a rate of five percent, a property owner would be taxed $5 for each $100 of tax capacity. Because of differences in property assessment practices between counties, comparisons of auditor tax rates among districts may be misleading (see No. 16). This figure includes additional tax rates for special intermediate districts (No. 287, 916 and 917) where they are part of a district's tax burden.

16. **Equalized Percent** – This tax rate is computed by multiplying the auditor percent (No. 15) by the 1998 market sales ratio. This ratio is equal to the market values, as determined by the local assessor, divided by the actual selling prices. Equalized percents are computed to compensate for varying assessment practices. Thus, when making interdistrict comparisons, these rates may provide a more valid comparison.

Revenue Percentages

These three columns show the percentage of each district's total revenues received from the federal government, the state government, and local and other sources. The percentages are based on all 1998-99 revenue reported by each district, except for proceeds from sales of real property and equipment, insurance recoveries, sales of bonds, loans and interfund transfers.

17. **Federal** – The percentage of revenues from the federal government, whether paid directly to the district or through another governmental unit.

18. **State** – The percent of revenues from Minnesota state government.

19. **Local and Other** – The percent of revenues from local sources, including property taxes, fees, county apportionment, etc.

1997-98 Expenditures Per ADM

Columns 20 through 35 show each district's 1998-99 expenditures in sixteen different categories, divided by total ADM served (Col. 6).

20. District and School Administration – Expenditures for the school board and for the office of the superintendent, principals, and any other line administrators who supervise staff. (Includes Funds 1, 8, 9; Program Series 001-099; and all Object Series except 500-599 & 910.)

21. District Support Services – Expenditures for central office administration and central office operations not included in district and school administration. Includes expenditures for business services, data processing, legal services, personnel office, printing, and the school census. (Includes Funds 1, 8, 9; Program Series 100-199; and all Object Series except 500-599 & 910.)

22. Regular Instruction – Expenditures for elementary and secondary classroom instruction, not including vocational instruction (Col. 23) and exceptional instruction (Col. 24). Includes salaries of teachers, classroom aides, coaches, and expenditures for classroom supplies and textbooks. (Includes Funds 1, 8, 9; Program Series 200-299; and all Object Series except 500-599 & 910.)

23. Vocational Instruction – Expenditures in secondary schools for instruction that is related to job skills and career exploration. Includes expenditures for family living science, as well as industrial, business, agriculture, and distributive education. (Includes Funds 1, 8, 9; Program Series 300-399; and all Object Series except 500-599 & 910.)

24. Exceptional Instruction – Expenditures for instruction of students who, because of atypical characteristics or conditions, are provided educational programs that are different from regular instructional programs. Includes expenditures for special instruction of students who are emotionally or psychologically disabled, or mentally retarded; for students with physical, hearing, speech, and visual impairments; and for students with special learning and behavior problems. (Includes Funds 1, 8, 9; Program Series 400-499; and all Object Series except 500-599 & 910.)

25. Instructional Support Services – Expenditures for activities intended to help teachers provide instruction, not including expenditures for administration. Includes expenditures for assistant principals, curriculum development, libraries, media centers, audio visual support, staff development, and computer-assisted instruction. (Includes Funds 1, 8, 9; Program Series 600-699; and all Object Series except 500-599 & 910.)

26. Pupil Support Services – Expenditures for all noninstructional services provided to students, not including transportation and food service. Includes expenditures for counseling, guidance, health services, psychological services, and attendance and social work services. (Includes Funds 1, 8, 9; Program Series 700-749 and 770-799: all Object Series except 500-599 & 910.)

27. Operations and Maintenance – Expenditures for operations, maintenance, and repair of the district's buildings, grounds, and equipment. Includes expenditures for custodians, fuel for buildings, electricity, telephones, and repairs. (Includes Funds 1, 8, 9; Program Series 800-899; and all Object Series except 500-599 & 910.)

28. Food Service – Expenditures for the preparation and serving of meals and snacks to students. (Includes Fund 2; all Program Series; and all Object Series except 500-599 & 910.)

29. Pupil Transportation – Expenditures for transportation of students, including salaries, contracted services, fuel for buses, and other expenditures. (Includes Fund 1; Program Series 750-760 and all Object Series except 500-599 & 910.)

30. Other Operating Programs – Expenditures for general fund operating programs necessary to a district's operations but not assignable to other programs. These can include federally funded community education services for students, property and liability premiums, principal and interest on noncapital obligations, and nonrecurring costs such as judgments and liens. (Includes Funds 1, 8, 9; Program Series 500-599 & 900-999; and all Object Series except 500-599 & 910.)

31. Total PK-12 Operating Expenditures Excluding Capital Expenditures – The total of the eleven preceding categories of expenditures (Columns 20 through 30). This figure includes all operating expenditures incurred for the benefit of elementary and secondary education during the 1998-99 school year, except capital expenditures. Construction and Debt Service expenditures are non-operating expenditures.

32. Capital Outlay – All capital expenditures charged to the operating funds. (Includes Funds 1, 2 and 4; all Program Series; and Object Series 500-599.)

33. Community Service – Expenditures for recreation, civic activities, adult education, early childhood education, or similar programs which are not conducted primarily for elementary and secondary students, and for non-credit summer school programs. (Includes Fund 4; all Program Series; and all Object Series except 500-599 & 910.)

34. Building Construction – All expenditures charged to the district's Building Construction Fund. Expenditures are for major capital projects funded by bond proceeds, state Capital Loans, state Facility Grants or the Down-payment Levies. (Includes Fund 6, all Program Series; and all Object Series except 910.)

35. Debt Service – Expenditures for repayment of long term debt including payments of principal and interest on bonds and capital loans. (Includes Fund 7, all Program Series, and all Object Series except 910.)

Other Measures Per ADM –

Columns 36 through 42 show other measures per ADM in seven different categories divided by total resident ADM (Col. 5).

36. Total of Unreserved Operating Funds Balances – This figure is a measure of the district's financial condition at the end of the 1998-99 school year. It is equal to the sum of the unreserved balances on June 30, 1999 from the three operating funds (General, Food Service, and Community Service) divided by 1997-98 Resident ADM (Col. 5). This measure is different than the Net Unappropriated Operating Fund Balance per ADM which is used to determine if a district has operating debt beyond what is allowed in statute.

37. Change in Unreserved Funds Balances – The difference between the district's operating funds balance on June 30, 1999 (see No. 36 above), and on June 30, 1998, divided by 1998-99 resident ADM.

This is essentially equal to the difference between the district's revenues and expenditures in 1997-98 for the three operating funds combined. Thus, a negative number indicates that the district's expenditures in the operating funds were greater than its revenues in these funds.

38. **Total of Reserved Operating Funds Balances** – This figure includes all reserved fund balances in the operating funds divided by resident ADM (Col. 5).

39. **General Fund Unreserved Balance** – This figure is a measure of the district's General Fund financial condition at the end of the 1998-99 school year. The balance is divided by 1998-99 Resident ADM (Col. 5). This measure is different than the Net Unappropriated Operating Fund Balance per ADM.

40. **General Fund Reserved Balance** This figure includes all General Fund reserved fund balances divided by resident ADM (Col. 5).

41. **Long Term Debt** – The amount of long-term debt outstanding on June 30, 1999, divided by 1998-99 Resident ADM (Col. 5). Long-term debt includes bonds and capital, debt service, and energy loans from the state.

42. **Prior Year Adjusted Net Tax Capacity** – The 1998 adjusted net tax capacity of the district divided by 1998-99 Resident ADM. This figure is an indicator of the district's ability to raise revenue through local property taxes.

School District Profiles, 1998-99 is the twenty-sixth in a series which presents data on school districts in the areas of enrollment, staffing and finance. Beginning with 1994-95, data is presented as per average daily membership (ADM). Prior to that, data was per weighted average daily membership (WADM).

In order to cut costs, the Department will not be mailing this publication to school superintendents in this or future years. Copies are available from the Minnesota Bookstore at 1-800-657-3757.

If you need more information, please contact Mike Enman at 651-582-8770 or via e-mail.

This report is available in pdf format below. The report is best viewed with Adobe Reader 3.01. If you do not have Adobe Reader installed you can get a copy from Adobe's Website.

Data for Enrollment Size Groups

Summary Statistics

ENROLLMENT SIZE GROUPS

The use of this table is to permit comparisons of districts with similar enrollments. For example, a district with 600 pupils may be compared to data for Group 4 (470 to 624 ADM) to see how that district's per pupil expenditures compare with other districts of similar size.

	1998-99 Resident Average Daily Mem.					Pupil Data					Prof. Staff				Tax Rates		Revenue %

ENROLLMENT SIZE GROUPS

The table below lists totals or averages for all districts in each of the ten enrollment size groups based on 1998-99 total average daily membership (ADM) served. For example, Group 1 includes all districts with 234 or fewer ADM and Group 2 includes all districts with 235 to 339 ADM.

	1998-99 Expenditures Per ADM																Other Measures per ADM

SUMMARY STATISTICS

This table shows the percentile distribution of each of the 42 statistics in the data tables. The breakdown is for each statistic separately and all districts are treated as single units. For example, the 95th percentile represents the value for the 330th district out of the total 347 districts.

The table may be used to better understand the distribution of a particular variable among Minnesota school districts. For example, percent attendance (column 8) varies little; ninety (90) percent of the school districts are within the narrow range of 91.4% (5th percentile) to 96.7% (95th percentile).

The table may also be used to see how an individual school district compares with other districts in the state. Two examples illustrate the use of the data:

1. A district that has total PK-12 operating expenditures (column 31) of $6,500 per ADM is very near the median value, which is $6,407. Thus, about half the districts in the state have lower expenditures and about half have higher expenditures per ADM.

2. A district with total average daily membership of 450 ADM (column 5) is between the 20th and 25th percentiles for this statistic.

Lowest and Highest Values. For any specific variable, the lowest and highest values for each variable.

XXth Percentile. For any specific variable, a value chosen such that XX percent of the school districts are below the chosen value. For example, the 10th percentile for total staff (column 11) is 23. This means that ten percent of the school districts have 23 or fewer staff members (FTE). The 25th, 50th, and 75th percentiles are called quartiles; the 10th, 20th, 30th, ... through the 100th percentiles are called deciles.

Median. For any specific variable, a value chosen such that half of the school districts are below the chosen value and half are above.

State Total. For variables 1-5 columns(1998-99 resident average daily membership), column 6 (ADM served), column 11(total staff),column and 12 (instructional staff), the state total is simply the sum of the corresponding values for all districts listed in the report. For all other variables, the state total is computed as the sum of the numerators for all districts, divided by the sum of the denominators. For these variables, the "state total" is the state average with larger districts affecting the average more.
